Welcome to our college!

POLOTSK STATE FORESTRY COLLEGE

ABOUT US

Forestry College is located in the centre of Polotsk, the oldest city in Belarus, where history and modernity are combined in an exceptional way. In 2021 our college celebrated its 100th anniversary! We are actively developing international cooperation and research activities, becoming a platform for international events.

We have modern equipment for the profession studying. Our educational-experimental forestry is a unique base for practical training activities. All students are provided with accommodation in comfortable dormitories during their studies.

TUITION FEES FOR INTERNATIONAL STUDENTS

Training period:

2.5 years after secondary school

Full-Time Russian-Taught Programmes, Tuition Fees for 1st Year Students -2100 \$

Training period:

3.4 years of distance learning

Part-Time Russian-Taught Programmes, Tuition Fees for 1st Year Students -804 \$

STUDYING

The college is open to everyone who wants to make forest care their profession. During the study in the specialty «Forestry» students get knowledge of reforestation and forest-growing, participate in the activities on the protection of forests, get a profession «Logger of the 6th category» (boys), «Forestry specialist of the 4th category» (girls). In the future, they can work in state forestry and forest management institutions, in national parks and reserves.

PRACTICE

The 10.700 hectare educational-experimental forestry is a structural division of the college where students can apply knowledge in practice and acquire the skills of working in the forest. There are good conditions for the practical training for students, educational and research activities. A wood processing workshop has been opened on the basis of forestry. The products of the workshop are sold within the country and are also exported.

It's the only college where the studying process is combined with practical forestry training.
