

WELCOME YOU TO BECOME OUR PARTNERS!

Activities

Partnership Research

We are ready to carry out cooperative research projects with your institution, mutually expanding our knowledge and getting valuable scientific results.

Organization of seminars and conferences

We are ready to organize mutual scientific seminars and conferences at various levels. This is an excellent opportunity to exchange experiences, present ideas and expand your professional contact list.

Access to resources and equipment

Our forestry college has a unique base for practical training - its own training and experimental forestation, which can be available to your students and teachers as a part of cooperation.

We believe that a research partnership will allow us to share knowledge, experience and innovation, creating unique opportunities for our students

The cost of all programs is calculated individually!
